Alvarez / Cruciform Carpenter

**No More Deaths** and *The Samaritans* should, or perhaps will, be the Subject of a Masters thesis at Amherst, or Smith, or Mount Holyoke College. We have over fifteen months of detailed minutes and concept development, and news articles stretching back nearly a decade, describing a complex delusional system reminiscent of the pirate subculture in Peter Bradford Benchley's *The Island*, or more pertinently, the shelling of lower Manhattan by the U.S. Navy in *The Gangs of New York*. The activities of these groups are at once futile, absurdist, frenetic, arrogant, self-absorbed, and a consequence of low self-esteem. Personal worth and careers are brought to equal value with the bleached and desiccated remains of ill-equipped and desperate fools who undertake to cross wastelands, often bearing contraband on behalf of Mexican drug lords and cartels, or invading jihadist ideologies.

The fact is that cultural appropriation along the border allows the flow of tourists through the local community to become involved, through churches, media, the public library, and events in The Plaza. This constitutes a menace to commerce and the very real threat of innocent involvement in profound danger, not just from an unfamiliar and hostile environment, but also with crimes and relationships irrelevant to their lives and costly to personal well-being. The characterization of these activities as "democratic", or "peaceful", or "humanitarian" masks the fact that they are anti-social, illegal, and antithetical to an ordered society's efforts to control immigration and border security. The arrest of self-motivated activists is deserved and appropriate; they've done this to themselves and should wear prison orange for thirty years. After all, the penalty for Treason used to be death by hanging or firing squad. This running-around like an ill-informed tribe, in isolation and denial, is self-damaging and should be treated like any other mental illness, rather than condoned. Ultimately, The United States of America will prevail over international relations. Local authorities should restrain excesses of personal angst, before naive "Maria" is seized by "the hard guys" in Sonoyta, and held to be ransomed by "poor Les". You should all take this nonsense personally, and put an end to this circus; LET THE BORDER PATROL DO THEIR JOB, and get out of the business of left-wingnut micro-management.

**Alvarez / Carpintero Cruciforme**

No más muertes y los samaritanos deberían, o tal vez serán, el tema de una tesis de maestría en Amherst, Smith o Mount Holyoke College. Tenemos más de quince meses de minutos detallados y desarrollo de conceptos, y artículos de noticias que se remontan a casi una década, describiendo un complejo sistema delirante que recuerda a la subcultura pirata en The Island de Peter Bradford Benchley, o más pertinente, el bombardeo del bajo Manhattan por EE. UU. Marina en The Gangs of New York. Las actividades de estos grupos son a la vez inútiles, absurdas, frenéticas, arrogantes, egocéntricas y una consecuencia de la baja autoestima. El valor personal y las carreras tienen el mismo valor con los restos descoloridos y desecados de tontos mal equipados y desesperados que se atreven a cruzar terrenos baldíos, a menudo portando contrabando en nombre de los capos y carteles de la droga mexicanos o invadiendo ideologías jihadistas.

El hecho es que la apropiación cultural a lo largo de la frontera permite el flujo de turistas a través de la comunidad local para involucrarse, a través de iglesias, medios de comunicación, la biblioteca pública y eventos en The Plaza. Esto constituye una amenaza para el comercio y la amenaza muy real de una participación inocente en un peligro profundo, no solo desde un ambiente hostil y desconocido, sino también con crímenes y relaciones irrelevantes para sus vidas y costosas para el bienestar personal. La caracterización de estas actividades como "democrática", "pacífica" o "humanitaria" enmascara el hecho de que son antisociales, ilegales y antitéticas a los esfuerzos de una sociedad ordenada para controlar la inmigración y la seguridad fronteriza. El arresto de activistas auto motivados es merecido y apropiado; se han hecho esto a sí mismos y deberían usar la prisión naranja durante treinta años. Después de todo, la pena por traición solía ser la muerte por ahorcamiento o escuadrón de fusilamiento. Esta carrera como una tribu mal informada, en aislamiento y negación, es autolesiva y debe tratarse como cualquier otra enfermedad mental, en lugar de tolerarse. En definitiva, los Estados Unidos de América prevalecerán sobre las relaciones internacionales. Las autoridades locales deben frenar los excesos de angustia personal, antes de que los "tipos duros" en Sonoyta se apoderen de la ingenua "María", y "pobres Les" la rescaten. Todos deberían tomarse esta tontería personalmente, y poner fin a este circo; PERMITA QUE LA PATRULLA FRONTERIZA HAGA SU TRABAJO, y salga del negocio de la microgestión del ala izquierda.

What about violations of international laws and treaties? Specifically ...consider the legality of a US Citizen entering a foreign country #1 (Mexico) for the specific purpose of assisting someone who has illegally entered foreign country #1-Mexico- from Foreign Country #2- example Guatemala-Guatemala citizen illegally enters Mexico and is then assisted by a US Citizen who has entered Mexico with the specific purpose of providing aid and relief to the Guataleman Citizen while illegal Guatemalan is in Mexico...and or for the purpose of illegally entering the US  
Did US Citizen violate....US law? Mexico law? Guatemala's laws?

What are the penalties..US; Mexico and Guatemala?

Do any of these countries have laws against illegal EXIT of their countries? Or EXITING their individual countries with intent to commit violations of other countries?

Seems like one might want to ask these questions prior to involvement in these activities. What seems like "good intentions" and or "humanitarian aid" in our country may be considered extreme violations in other countries...Examples are numerous...Missionaries from the US getting imprisoned throughout the world...

**Perhaps you could ASK PIMA COUNTY SHERIFF AND OUR BORDER PATROL LAISON to get speakers from these other countries...example perhaps Police Chief from Sonoyta, or from the Mexican Embassy or Consulate in Phoenix....to give a presentation on these issues. Perhaps for the good sam group or even better at WPCCC or another public meeting.**

I think Sheriff Napier would be willing to assist or perhaps Lt. Rob Kumal here at the Ajo station.

Would hate to see nice folks from Ajo, incarcerated in a foreign country, wouldn't you?
